

ANGIE MÜLLER-PUCH

Partner

Angie Müller-Puch studied architecture at the École Polytechnique Fédérale de Lausanne (EPFL) and RWTH Aachen, where she earned her diploma. Since 2015, she has been working as an architect at Behnisch Architekten, leading projects in Germany and abroad with a focus on resource-efficient and circular construction. She has won numerous competitions, including the Smart Living Lab in Fribourg and the pilot project “Einfach Bauen” in Zurich, and has directed projects such as the Franco-German School in BUC. Since 2022, she has been a Partner at the Behnisch Architekten Weimar office, where she and her team work on a wide range of international projects with social and sustainable priorities. She actively engages with these themes through her work on juries, as an author, and as a lecturer.
